FOR PRESIDENT,
JAMES A. GARFIELD,
OF OHIO.
FOR VICE PRESIDENT,
CHESTER A. ARTHUR,
OF NEW YORK.

THE NEW COUNTY BOARD.

The Republican County Convention renominated for long term Commissioner Thomas K. Hymers of Reno. Tom Hymers is a good man. He has to be good. He can't help it. God couldn't make a man as homely as he is without using good stuff. Our hero came to light forty-seven years ago in New York State. He lived in Wisconsin three years, and got his hair frost bitten; then he came to Nevada, landing in May, 1860. He went into the lumber business in Thomas' canyon, and it took him eight years to get out. Then he came to Reno and built a town. He has kept right on living here ever since. His career as County Commissioner has been most extraordinary. He is a perfect martyr to duty. He will sit all day in his official capacity and study lumber and grub bills, and get up at night just as good-natured as when he sat down. If any of the poor old unfortunates that follow him around strike him after a hard day's work, he is just as sure of getting enough to buy a drink as if Tom had just made a thousand dollars. In the conduct of his share of the county business, we believe that Mr. Hymers has had but one object, and that was to be honest and fair with all men. He has great decision of character, although it is sometimes concealed under his bland and conciliating manner. When it is necessary, however, to be firm, nothing can shake him. He has the happy faculty of hearing all manner of criticism and fault-finding without losing sleep or flesh, and we can only account for his invariable cheerfulness on the supposition that he has a conscience void of reproach. The Convention wanted to get a good-looking man to stand off Hymers, so they put Nat Holmes of Franktown on for short term Commissioner. Kinney is just about medium, and to balance the Board something had to be done. Mr. Holmes has been twenty-nine years on the coast. The first ten years he was merchandising in Sacramento. In '62 he located in Washoe valley. He is now ranching. He is a native of Barnstable, Mass., forty-eight years of age. His energy and ability would go far towards making him a good Commissioner, and his intimate acquaintance with affairs here would certainly be in his favor. The new Board will be an eminently respectable body and one that will command the confidence of our people.

WHY THEY MAKE SUCH MISTAKES.

Small minds cannot grasp large subjects. Undeveloped brains cannot measure the height and breadth of complicated questions. Ignorant men can no more judge properly of great questions than a quart jug can hold a gallon of vinegar. When they try they get hold of some small detail that fills their minds so completely that they think there is nothing else to settle. If a little child looks out over a fine landscape it sees none of the beauties of the prospect as a whole, but its eye instantly lights on some one object and absorbs its whole attention. If it sees a horse or dog, a house, or even a tree, it has eyes for nothing else. The Democratic party seems to be peculiarly childlike in this respect. It seems utterly incapable of realizing that there are great national issues involved in the election of Hancock or Garfield. It seems to believe that it is simply a question as to who shall draw the fifty thousand dollars salary for the next four years, and which side shall appoint the postmaster. They have devoted the summer and fall to proving that Hancock is better entitled to this salary than Garfield is. They have sought by misrepresentation and reiteration to convince voters that Garfield was corrupt, and this in the face of the most positive proof, both from the evidence and from prominent Democrats, that he is a pure man. In their narrowness of vision they have lost sight of the great principles of government that control nations and races of men, of which blind partisan zeal seems to be one of the symptoms rather than the cause. This campaign certainly means more than who shall sign the pay rolls or appoint the office holders, and the Democrats will find that they are out of tune and cannot be trusted in matters of which they seem incapable of grasping the A B C's.

LOOK OUT FOR HOOBACKS.

No one should be deceived by the campaign yarns that are sprung in this, the last week of the campaign. Our dispatches to-day say a new letter has been prepared and will be circulated on the morning of the election, calculated to injure Garfield. The exposure will doubtless change the intention, if not it will prove a boomerang. Everybody knows that Garfield sprang from the rank of a laborer, that he knows what it is to swing an ax all day and study all the evening. It is ridiculous to suppose that Hancock, the aristocratic military martinet, is the friend of the poor man, and that Garfield who has felt all the pangs of pinching poverty in early life, and is to-day a poor man, should be an enemy of the poor man. Garfield's kindness of heart and sympathetic nature are proverbial wherever he is known. He is very approachable, and never refuses to listen to anyone who is in trouble, and he invariably helps him if he can. We say nothing about how Hancock's private office is guarded by a United States soldier marching up and down, musket in hand.

EDITORIAL NOTES.

A Boca Democrat yesterday was showing a slip printed by some newspaper, giving extracts from the Congressional Record on the Credit Mobilier trial. He thought he had made a wonderful strike until a couple of mischievous Republicans turned up their noses and said: "Why, don't you know what that Congressional Record is? It's a Democratic campaign paper, and you can't believe a word it says." And the fellow believed it.

The Appeal wants fewer Senatorial candidates. It advises Woodburn, Tritle, Wren and Whitman to withdraw. We object. The more the merrier. We would like to see every Republican in Nevada a candidate, and every candidate working as hard as he could. If the Republicans defeat Fair we hope he will help elect Tritle.

Washoe county should look with great favor upon Mr. Frazier's venture in moving his foundry to Reno. He should receive a hearty welcome, and everybody ought to try to make his foundry prosperous and successful. We hope it is the precursor of all manner of manufacturing industries.

It doesn't cost prospectors much for meat in eastern Nevada. There are always plenty of cattle roaming around the hills. Sometimes a whole camp will worry along all summer without buying any meat from a butcher.

This community is to be congratulated that in the case of Barney Fitzgerald crime has not escaped unpunished. The conviction of this man makes safer the life of every citizen of Reno.

Moody and Sankley are in Salt Lake. They will pass through Reno in a few days on their way to San Francisco. They will find plenty of employment there.

Our "cradle" is well filled this week, as will be seen by reference to another column. *Greenleaf Bulletin*.

What, already? Why, Weed!

The *Sentinel* says Whitman and Powning had a large and enthusiastic audience in Eureka on Saturday night.

The Bodie *Free Press* for a long time suspected Hancock to be an ass. Now it is sure he is.

The Nevada City *Free Lance* (Democratic) has suspended for lack of patronage.

GRAND RALLY.

There will be a special train down from Carson this evening, bringing speakers who will address the Garfield and Arthur Club. The meeting will be held in the Theater. Dr. D. Banks McKenzie is expected to deliver a stirring speech to-night, and some bright speakers from the outside will be here.

500 Coming From Carson. CARSON, Oct. 25. A special train leaves Carson at six o'clock, with 500 passengers to attend the Republican meeting in Reno this evening.

Personals.

B. F. Bacon is filling the agency at Verdi temporarily. Mrs. F. J. Fletcher has gone to live in San Francisco for the winter.

George Becker and the manager of the Wine House are sick with pneumonia. Fred W. Wetherill left on Saturday night to take charge of Dow Huntsman's hotel at Battle Mountain. He makes a first-rate hotel man.

Mrs. Johns, of Cherry Creek, went to San Francisco Saturday night, taking with her Ida Huntsman, her daughter, who has been a long time under Mrs. Roff's care. Mrs. Johns and Ida will shortly go to Missouri for the winter.

Dr. W. S. Springstein has just returned from Denver and is going to Tucuman to locate. He is an excellent physician and spent a number of years in the Government service. Last winter he had charge of the railroad and county hospital at Battle Mountain, where he had great success in a large number of cases of pneumonia, adding largely to his reputation.

Reform Club Entertainment.

The expected address from J. F. Alexander was not forthcoming at the Reform Club meeting on Saturday. Mr. Alexander had been ten days absent from town and had not been notified in time to prepare anything. Rev. D. B. McKenzie spoke briefly on the subject of his labors in Reno, announcing that he was about to remove to a new field of effort. He goes to live in San Leandro, California, next week. A novelty in the entertainment was a duet by Lane and Taylor on the instrument known to trade as the "harmonica," and to the rising generation as the "mouth organ." The duet was skillfully executed and called out an encore. The dance which closed the entertainment was not so well attended as it usually is.

A Street Scene in New York.

A band of seventeen magnificent Norman stallions, marching through the streets of New York the other day, attracted general attention. They had just been landed from an ocean steamer, and were about to be shipped by rail to Illinois. The New York papers all made mention of the interesting spectacle, as a very striking and pleasing sight. Now it turns out that some of those very horses are to be in Reno next month. They were imported by James A. Perry of Illinois here during the Fair of 1879, some of which he sold in this part of the country. Mr. Perry writes to L. W. Lee that he will be here with seven fine stallions some time next month.

A Chance to Make Money.

Dr. Hogan defies the GAZETTE to insert the following propositions: Dr. Hogan wagers \$100 that the speech delivered by him at Verdi on the greenback question is superior to Bob Ingersoll's recent speech on the same topic. Dr. Hogan will pay \$100 to any man who shall overthrow his arguments on the greenback question. Dr. Hogan wagers \$100 that Bob Ingersoll knows nothing about the greenback question.

Special Train to Washoe.

There will be a big Republican meeting at Washoe to-morrow evening. A special train, free for all, will leave Reno for Washoe to-morrow afternoon.

WADSWORTH VOTERS.

JOTTINGS.

New goods at J. K. Everett's. Isaac Barnett's new sign attracts attention. See that your name is all right on the registry list. The frosts have killed all the mosquitoes at Glendale. A number of wild geese were killed on the meadows last week. Wild ducks are scarce. A storm is needed to bring them in. One more week, and then we will all have a little rest. The horse distemper is prevalent all over the meadows. The insurance agents say the losses have been five times the receipts from Nevada. The District Court has appointed Robert McTaggart administrator of the estate of C. Gates, deceased. The first engine for the Carson & Colorado went through yesterday. It was made at the Baldwin Locomotive Works. Great preparations are being made for the Republican meeting in Washoe to-morrow night, and in Pyramid Wednesday night. The farmers of this valley have not had so bad a season, after all. With two fair crops of hay and high prices, they should not complain. Patches of golden yellow now brighten the dark slopes of the Sierra. They mark the places where the frost has found alder thickets and cottonwoods on which to set its traces. The semi-annual election of officers of the W. T. Union will take place to-morrow at 2 p. m. in Reform Club hall. The election of officers of the Reform Club will come off Wednesday evening. A bet is pending between Nick and Frank Hammersmith on the result of the Presidential election. The loser is to wheel the winner around the town in a barrow, with appropriate music. Dr. Bishop brought in a bullet of amalgam from the Jones & Kinkadee. He says the new mill works well. It crushed 1,500 pounds of ore in forty minutes, and can crush 30 tons in 24 hours if pushed. The importance of wearing warm woolen clothing at this season cannot be too strongly urged. Many a man is going to a premature grave who might be saved by the timely purchase of an ulster at the White House. The Democrats had a well distributed audience in the theatre Saturday night. Mr. Stonehill made a clever speech, and Mr. McTarnahan spoke with his usual honesty of purpose. General Hagerman presided. Jupiter and Venus now make their appearance at sunset, at opposite points in the heavens, Venus in the west and Jupiter in the east. Venus sinks as Jupiter rises, and Jupiter now looks larger and brighter than the beautiful evening star. Alexander, Bridges & Chapin have excellent prospects of developing a valuable property in their salt marsh in Hot Springs valley. They returned on Saturday from a ten day trip to the marsh, bringing in samples of salt and of water. The water shown is as clear as crystal, and saturated with salt.

Murder in the Second Degree. The trial of Barney Fitzgerald, charged with the murder of Thomas Laswell on February 1, 1890, was brought to a close in the District Court last Saturday. The case went to the jury at 2:30 p. m., and they remained out over two hours. It was whispered about town that the jury was to be "hung" by an obstinate juror. The jury finally came in with the following verdict: "We, the jury in the above entitled cause, find the defendant, Bernard Fitzgerald, guilty of murder of the second degree, with recommendation to the mercy of Court."

The prisoner heard the verdict with outward calmness. Judge King remanded him, to appear for sentence on Wednesday morning at nine o'clock. For murder in the second degree the punishment is from ten years imprisonment to imprisonment for life in the penitentiary. The prisoner says he was disappointed in the verdict, as he hoped to be acquitted. The sentiment of the community is that he was lucky to get the verdict he did. It has been ascertained that eleven of the jurors, from the time of retiring, favored a verdict of murder in the first degree. John Poe stood out for acquittal, and the verdict given was as the result of a compromise between him and the eleven. Poe has the reputation of being a "chronic acquitter," as a jurymen.

A Rising Town in Arizona. An Arizona correspondent of the GAZETTE thinks that Tombstone, with its rich mines, abundance of wood and water and fine climate, is to be the principal town of the Territory. The town is only two years old, yet contains 3,000 inhabitants. It is rich in saloons, having 75, and thirty stores. Two newspapers furnish news to the populace, who are bled and physicked by ten lawyers and twenty doctors, including dentists. The supply of water, though abundant, is controlled by a company. It is piped to the town and sells at a cent and a quarter per gallon. A. M. Walker and H. B. Maxson, late of Reno, are in Tombstone and doing well.

Healed His Lung. No. 3 Kearney St., April 1st, 1897. Office of Bush & Belle, do. Note—To the California Porcelain Plaster Company—Gentlemen: Your Porcelain Plaster is just what I wanted; they have effectively cured my cold. The pain in my left lung has entirely disappeared. I will recommend them to my friends. Respectfully yours, R. F. RALPH, D. D. S.

BY TELEGRAPH.

Garfield Denounces the Morey Letter. New York, Oct. 23. The following dispatch was received to-day at the Republican headquarters: "MANTON, Ohio, October 22, 1890.—To Hon. M. Jewell and Hon. S. W. Dorsey: 'I will not break the rule I have adopted by making public reply to campaign lies; but I authorize you to denounce the so-called Morey letter as a bold forgery, both in its language and sentiment. Until its publication I never heard of the existence of the Employers' Union of Lynn, Massachusetts, or of such a person as H. L. Morey.' (Signed): J. A. GARFIELD."

Crushed to Death. AUBURN, Oct. 23. James T. McLean, Superintendent of the Rock Creek mine, situated about three miles from here, was instantly killed at 3 o'clock yesterday afternoon by being crushed under the quartz mill mortar, weighing about three tons. The mortar was being hoisted up by a block-tackle, when Mr. McLean got under it to brush off the bed, and while so engaged the rope broke, letting the immense casting fall upon him, crushing his head and arm to a shapeless mass.

Col. Fair in Candelaria. CANDELARIA, Oct. 23. Colonel Fair arrived in town to-day. He is accompanied by Captain Sam Curtis. Fair says the object of his trip is to look at mining property, and that it has no political significance. The Democrats are exultant. They do not so understand it.

Official Returns From Indiana. INDIANAPOLIS, Oct. 23. The official figures: Total vote on Governor: Porter, 230,291; Landers, 222,780; Gregg, 14,863; Porter's plurality, 7,551.

More Sharp Practice. NEW YORK, Oct. 25. A bogus letter on the labor question, damaging Garfield, being refused publication here by the Sun, World, and all respectable Democratic papers, yesterday found a California purchaser, and fac-simile plates were shipped. The intention is to flood Nevada, California and Oregon with the forgery on election morning. The trick failed here.

The Little Board Suspends. SAN FRANCISCO, Oct. 25. The California Stock exchange, better known as the little board, has suspended, owing to the depression in stock business.

The New Foundry.

The first blast will be made in the new foundry next Thursday. Mr. Frazer expects to run through about thirty tons before Nov. 1st, mostly shoes and dies for Virginia. The works will by no means be completed this week, however. When everything is here and running the establishment will be the most complete in the State. The cupola is forty-six inches in diameter and has a capacity of fourteen tons a day. A donkey engine is used to run the Baker blower, which is the best in use. A large portable crane, the only one in Nevada, is to be set up. It enables the works to handle huge quantities of molten metal in one body and make the largest kind of castings as easily as a window weight. At present the power used will be steam but ultimately it will be water. The ditch which heads at the Virginia street bridge will be enlarged and used to run a turbine wheel like that at Lake and Beck's mill, and the power transmitted to a shaft ninety feet above by means of a wire rope. This will be a cheap and effective motor. For supplying the engines, wetting down the sand, etc., water will be taken from the town works. A pipe is being laid to-day.

Bible Society Meeting.

The annual meeting of the Reno branch of the American Bible Society will be held at 7 p. m. this evening in the Episcopal church, Judge Webster presiding. Rev. John Thompson of Cal. Dist. Supt., will give a brief outline of Bible work; Rev. G. F. G. Morgan will speak on "Mexico and California, or in the Darkness or the Light;" Rev. W. R. Jenvey on "The Bible's Influence on the Nations;" Rev. Mr. McKelvey on "The Inspiration of the Bible;" and Rev. C. C. Wheeler on "The Bible and the Public Schools." No collection will be taken up.

Lake vs. Lake.

The divorce suit of Jane Lake vs. M. C. Lake came up to-day for trial in the District Court. Lindsay & Dixon, of Virginia, and W. M. Boardman have been admitted associate counsel with C. S. Varian, for the plaintiff, and Gen. Kittrell with Gen. Clarke for the defendant. Mr. Lindsay and Generals Clarke and Kittrell have arrived and are in attendance upon the Court. A jury is being impanelled to try the case. Out of twelve jurors called this morning, five were passed, and no challenges had been made. The taking of evidence will probably be commenced before night.

If you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this State. Everything we have is new. No old, musty and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. We make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods form one of our specialties.
